This is really an amazing product. The quality is very good and the fit is perfect. It's easy to put on and it really helps. It really keeps your posture in check and when on you feel no pain in your shoulders or neck. Increase the time gradually and you will be fine!

★★★★★ Works well

This is probably my third or fourth posture device that I have tried. It is my favorite for sure, it's far more comfortable than the others.

★★★★★ Good Product

Great product. Protects me from getting bad back posture while doing work on my computer. It's a good way to train yourself to maintain a good posture while sitting for extended periods of time.
